ELECTRONIC EQUIPMENT BRANCH

INDUSTRIAL DIVISION

ORR

MISSION

The Electronic Equipment Branch is responsible for producing all-source economic intelligence on the electronic equipment industries of the Sino-Soviet Bloc, for contributing to the coordination of such intelligence production within the US Government, and for contributing within its field of responsibility to national intelligence estimates.

The Electronic Equipment industry is here defined to include the following general production categories: electronic and precision electrical components and sub-assemblies; electronic equipment for communications, radar, navigation, and special military devices; electronic and precision electrical machinery, materials and equipment for industry; electric wire, cable and supplies; and electric batteries.

ELECTRONIC EQUIPMENT BRANCH

INDUSTRIAL DIVISION

CAR

FUNCTIONS

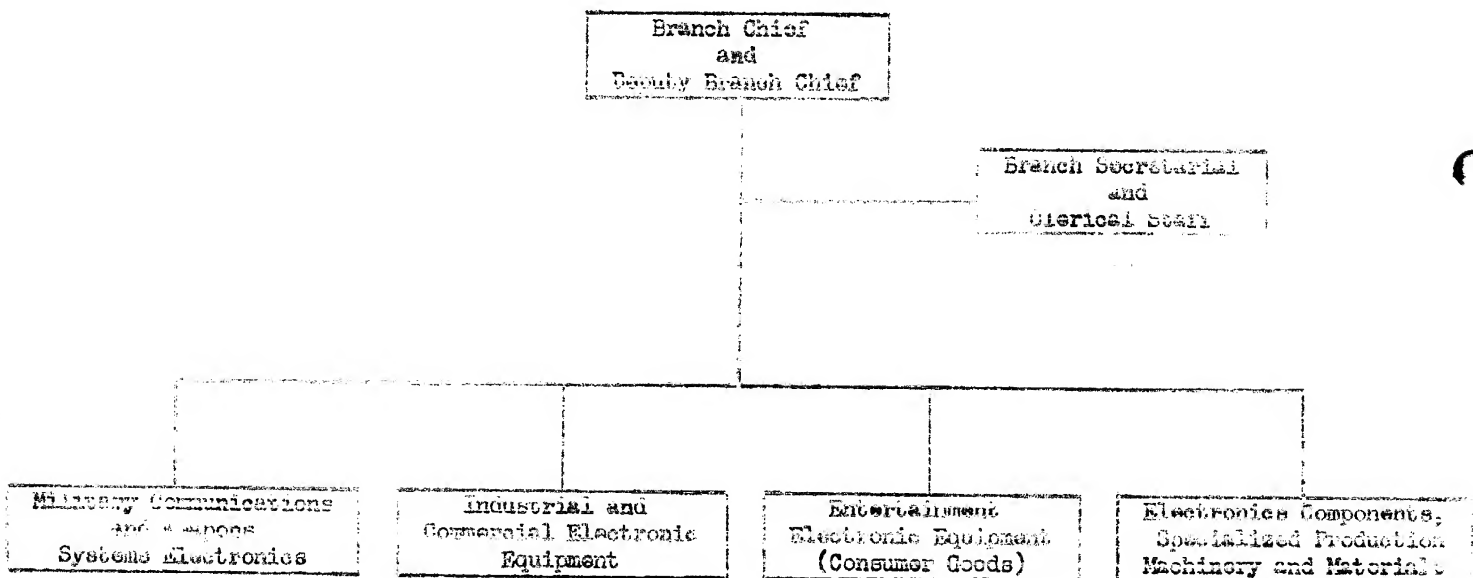

Within its field of responsibility the Electronic Equipment Branch shall:

1. Formulate, recommend, and prepare, or coordinate the preparation of research programs and intelligence studies bearing on the economic activities, capabilities, vulnerabilities, and intentions of the Sino-Soviet Bloc.
2. Provide economic, including current, intelligence support and technical advice to other components of CIA, and to other US Government Agencies.
3. Prepare, or review and evaluate contributions to the NIS program on Sino-Soviet Bloc countries.
4. Maintain working level liaison with other US Government Agencies.
5. Provide chairmen and/or secretariat for EIC subcommittees.
6. Prepare collection, collation, and exploitation requirements, and provide guidance and evaluation in support thereof.
7. Recommend and work with, as necessary, consultants and/or consultant panels to assist in carrying out Branch responsibilities.
8. Review and evaluate intelligence reports received from US and other Government Agencies.
9. Devise, investigate, and develop research methods and techniques useful in the production of economic intelligence within the field of Branch responsibility.
